Chapter 19 Exam

Eye, Auditory & Radiology

Name: _____ Date: _____

Score (instructor): _____ / 15

Choose the best answer for each question. Mark one choice per question. Each question is worth 1 point.

1. Which description best matches “Cataract extraction”?

[ ] A. Imaging performed both before and after contrast administration
[ ] B. Removal of vitreous gel from the eye
[ ] C. Removal of a clouded natural lens
[ ] D. Creation of an eardrum opening, often with tube placement

2. Which description best matches “Intraocular lens”?

[ ] A. Injection of medication into the vitreous cavity
[ ] B. An artificial lens implanted in the eye
[ ] C. Removal of diseased mastoid air cells
[ ] D. An imaging examination meeting all required views or components in the code descriptor

3. Which description best matches “Complex cataract surgery”?

[ ] A. Cataract removal requiring qualifying devices or techniques beyond routine extraction
[ ] B. Removal or replacement of the stapes for qualifying conductive hearing loss
[ ] C. Planning and delivery of therapeutic radiation treatment
[ ] D. Corneal transplant or repair

4. Which description best matches “Vitrectomy”?

[ ] A. The physician's interpretation and report, commonly identified by modifier 26
[ ] B. Removal of a clouded natural lens
[ ] C. Creation of an eardrum opening, often with tube placement
[ ] D. Removal of vitreous gel from the eye

5. Which description best matches “Intravitreal injection”?

[ ] A. An artificial lens implanted in the eye
[ ] B. Removal of diseased mastoid air cells
[ ] C. Injection of medication into the vitreous cavity
[ ] D. Equipment, supplies, and technical personnel, commonly identified by modifier TC

6. Which description best matches “Keratoplasty”?

[ ] A. Removal or replacement of the stapes for qualifying conductive hearing loss
[ ] B. Corneal transplant or repair
[ ] C. Both professional and technical components furnished by one reporting entity
[ ] D. Cataract removal requiring qualifying devices or techniques beyond routine extraction

7. Which description best matches “Tympanostomy”?

[ ] A. Creation of an eardrum opening, often with tube placement
[ ] B. Imaging performed both before and after contrast administration
[ ] C. Removal of vitreous gel from the eye
[ ] D. The physician's interpretation and report, commonly identified by modifier 26

8. Which description best matches “Mastoidectomy”?

[ ] A. An imaging examination meeting all required views or components in the code descriptor
[ ] B. Injection of medication into the vitreous cavity
[ ] C. Equipment, supplies, and technical personnel, commonly identified by modifier TC
[ ] D. Removal of diseased mastoid air cells

9. Which description best matches “Stapedectomy”?

[ ] A. Corneal transplant or repair
[ ] B. Both professional and technical components furnished by one reporting entity
[ ] C. Removal or replacement of the stapes for qualifying conductive hearing loss
[ ] D. Planning and delivery of therapeutic radiation treatment

10. Which description best matches “Professional component”?

[ ] A. Imaging performed both before and after contrast administration
[ ] B. The physician's interpretation and report, commonly identified by modifier 26
[ ] C. Removal of a clouded natural lens
[ ] D. Creation of an eardrum opening, often with tube placement

11. Which description best matches “Technical component”?

[ ] A. Equipment, supplies, and technical personnel, commonly identified by modifier TC
[ ] B. An artificial lens implanted in the eye
[ ] C. Removal of diseased mastoid air cells
[ ] D. An imaging examination meeting all required views or components in the code descriptor

12. Which description best matches “Global radiology service”?

[ ] A. Cataract removal requiring qualifying devices or techniques beyond routine extraction
[ ] B. Removal or replacement of the stapes for qualifying conductive hearing loss
[ ] C. Planning and delivery of therapeutic radiation treatment
[ ] D. Both professional and technical components furnished by one reporting entity

13. Which description best matches “With and without contrast”?

[ ] A. The physician's interpretation and report, commonly identified by modifier 26
[ ] B. Removal of a clouded natural lens
[ ] C. Imaging performed both before and after contrast administration
[ ] D. Removal of vitreous gel from the eye

14. Which description best matches “Complete study”?

[ ] A. An artificial lens implanted in the eye
[ ] B. An imaging examination meeting all required views or components in the code descriptor
[ ] C. Injection of medication into the vitreous cavity
[ ] D. Equipment, supplies, and technical personnel, commonly identified by modifier TC

15. Which description best matches “Radiation oncology”?

[ ] A. Planning and delivery of therapeutic radiation treatment
[ ] B. Corneal transplant or repair
[ ] C. Both professional and technical components furnished by one reporting entity
[ ] D. Cataract removal requiring qualifying devices or techniques beyond routine extraction
