Chapter 13 Exam

Respiratory Surgery

Name: _____ Date: _____

Score (instructor): _____ / 15

Choose the best answer for each question. Mark one choice per question. Each question is worth 1 point.

1. Which description best matches “Septoplasty”?

[ ] A. Surgical correction of the nasal septum
[ ] B. Endoscopic examination of the tracheobronchial tree
[ ] C. Removal of one lobe of a lung
[ ] D. Endoscopic examination of the nasal cavity and related structures

2. Which description best matches “Turbinate procedure”?

[ ] A. Instillation and retrieval of fluid through a bronchoscope for sampling
[ ] B. Removal of an entire lung
[ ] C. Instrument examination of the larynx through the mouth
[ ] D. Reduction or removal of nasal turbinate tissue

3. Which description best matches “FESS”?

[ ] A. Intentional adhesion of pleural layers to prevent recurrent air or fluid accumulation
[ ] B. Creation of an opening into the trachea
[ ] C. Functional endoscopic sinus surgery
[ ] D. A therapeutic bronchoscopy that generally includes the diagnostic examination

4. Which description best matches “Nasal endoscopy”?

[ ] A. Endoscopic examination of the tracheobronchial tree
[ ] B. Endoscopic examination of the nasal cavity and related structures
[ ] C. Needle drainage of fluid or air from the pleural space
[ ] D. Surgical correction of the nasal septum

5. Which description best matches “Direct laryngoscopy”?

[ ] A. Instrument examination of the larynx through the mouth
[ ] B. Tube placement for ongoing drainage of the pleural cavity
[ ] C. Reduction or removal of nasal turbinate tissue
[ ] D. Instillation and retrieval of fluid through a bronchoscope for sampling

6. Which description best matches “Tracheostomy”?

[ ] A. Endoscopic examination or surgery within the chest cavity
[ ] B. Functional endoscopic sinus surgery
[ ] C. A therapeutic bronchoscopy that generally includes the diagnostic examination
[ ] D. Creation of an opening into the trachea

7. Which description best matches “Bronchoscopy”?

[ ] A. Endoscopic examination of the nasal cavity and related structures
[ ] B. Needle drainage of fluid or air from the pleural space
[ ] C. Endoscopic examination of the tracheobronchial tree
[ ] D. Removal of one lobe of a lung

8. Which description best matches “Bronchoalveolar lavage”?

[ ] A. Tube placement for ongoing drainage of the pleural cavity
[ ] B. Instillation and retrieval of fluid through a bronchoscope for sampling
[ ] C. Removal of an entire lung
[ ] D. Instrument examination of the larynx through the mouth

9. Which description best matches “Surgical bronchoscopy”?

[ ] A. A therapeutic bronchoscopy that generally includes the diagnostic examination
[ ] B. Intentional adhesion of pleural layers to prevent recurrent air or fluid accumulation
[ ] C. Creation of an opening into the trachea
[ ] D. Endoscopic examination or surgery within the chest cavity

10. Which description best matches “Thoracentesis”?

[ ] A. Surgical correction of the nasal septum
[ ] B. Endoscopic examination of the tracheobronchial tree
[ ] C. Removal of one lobe of a lung
[ ] D. Needle drainage of fluid or air from the pleural space

11. Which description best matches “Chest tube”?

[ ] A. Instillation and retrieval of fluid through a bronchoscope for sampling
[ ] B. Removal of an entire lung
[ ] C. Tube placement for ongoing drainage of the pleural cavity
[ ] D. Reduction or removal of nasal turbinate tissue

12. Which description best matches “Thoracoscopy”?

[ ] A. Intentional adhesion of pleural layers to prevent recurrent air or fluid accumulation
[ ] B. Endoscopic examination or surgery within the chest cavity
[ ] C. Functional endoscopic sinus surgery
[ ] D. A therapeutic bronchoscopy that generally includes the diagnostic examination

13. Which description best matches “Lobectomy”?

[ ] A. Removal of one lobe of a lung
[ ] B. Endoscopic examination of the nasal cavity and related structures
[ ] C. Needle drainage of fluid or air from the pleural space
[ ] D. Surgical correction of the nasal septum

14. Which description best matches “Pneumonectomy”?

[ ] A. Instrument examination of the larynx through the mouth
[ ] B. Tube placement for ongoing drainage of the pleural cavity
[ ] C. Reduction or removal of nasal turbinate tissue
[ ] D. Removal of an entire lung

15. Which description best matches “Pleurodesis”?

[ ] A. Endoscopic examination or surgery within the chest cavity
[ ] B. Functional endoscopic sinus surgery
[ ] C. Intentional adhesion of pleural layers to prevent recurrent air or fluid accumulation
[ ] D. Creation of an opening into the trachea
