Chapter 15 Exam

Digestive Surgery

Name: _____ Date: _____

Score (instructor): _____ / 15

Choose the best answer for each question. Mark one choice per question. Each question is worth 1 point.

1. Which description best matches “EGD”?

[ ] A. Removal of a segment of small intestine
[ ] B. Endoscopic examination of the colon to the cecum or anastomosis when complete
[ ] C. Endoscopic examination of the esophagus, stomach, and duodenum
[ ] D. Endoscopic treatment used to stop gastrointestinal hemorrhage

2. Which description best matches “Endoscopic biopsy”?

[ ] A. A colonoscopy that does not reach the intended endpoint and is reported under applicable rules
[ ] B. Tissue sampling performed through an endoscope
[ ] C. The principle that the most extensive related endoscopic service may include lesser diagnostic work
[ ] D. Surgical correction of protruding tissue through a defect

3. Which description best matches “Endoscopic dilation”?

[ ] A. Widening of a documented gastrointestinal narrowing
[ ] B. Removal of the gallbladder
[ ] C. Pancreaticoduodenectomy with reconstruction for qualifying pancreatic or periampullary disease
[ ] D. Endoscopic removal of a lesion using a wire loop

4. Which description best matches “Colonoscopy”?

[ ] A. Imaging of the bile ducts with contrast
[ ] B. Endoscopic examination of the esophagus, stomach, and duodenum
[ ] C. Endoscopic treatment used to stop gastrointestinal hemorrhage
[ ] D. Endoscopic examination of the colon to the cecum or anastomosis when complete

5. Which description best matches “Incomplete colonoscopy”?

[ ] A. Tissue sampling performed through an endoscope
[ ] B. The principle that the most extensive related endoscopic service may include lesser diagnostic work
[ ] C. A colonoscopy that does not reach the intended endpoint and is reported under applicable rules
[ ] D. Endoscopic retrograde examination and treatment of bile and pancreatic ducts

6. Which description best matches “Snare removal”?

[ ] A. Removal of the gallbladder
[ ] B. Endoscopic removal of a lesion using a wire loop
[ ] C. Removal of part or all of the colon
[ ] D. Widening of a documented gastrointestinal narrowing

7. Which description best matches “Control of bleeding”?

[ ] A. Endoscopic treatment used to stop gastrointestinal hemorrhage
[ ] B. Removal of a segment of small intestine
[ ] C. Endoscopic examination of the colon to the cecum or anastomosis when complete
[ ] D. Imaging of the bile ducts with contrast

8. Which description best matches “Endoscopy hierarchy”?

[ ] A. Surgical correction of protruding tissue through a defect
[ ] B. A colonoscopy that does not reach the intended endpoint and is reported under applicable rules
[ ] C. Endoscopic retrograde examination and treatment of bile and pancreatic ducts
[ ] D. The principle that the most extensive related endoscopic service may include lesser diagnostic work

9. Which description best matches “Cholecystectomy”?

[ ] A. Endoscopic removal of a lesion using a wire loop
[ ] B. Removal of part or all of the colon
[ ] C. Removal of the gallbladder
[ ] D. Pancreaticoduodenectomy with reconstruction for qualifying pancreatic or periampullary disease

10. Which description best matches “Cholangiography”?

[ ] A. Removal of a segment of small intestine
[ ] B. Imaging of the bile ducts with contrast
[ ] C. Endoscopic examination of the esophagus, stomach, and duodenum
[ ] D. Endoscopic treatment used to stop gastrointestinal hemorrhage

11. Which description best matches “ERCP”?

[ ] A. Endoscopic retrograde examination and treatment of bile and pancreatic ducts
[ ] B. Tissue sampling performed through an endoscope
[ ] C. The principle that the most extensive related endoscopic service may include lesser diagnostic work
[ ] D. Surgical correction of protruding tissue through a defect

12. Which description best matches “Colectomy”?

[ ] A. Widening of a documented gastrointestinal narrowing
[ ] B. Removal of the gallbladder
[ ] C. Pancreaticoduodenectomy with reconstruction for qualifying pancreatic or periampullary disease
[ ] D. Removal of part or all of the colon

13. Which description best matches “Enterectomy”?

[ ] A. Imaging of the bile ducts with contrast
[ ] B. Endoscopic examination of the esophagus, stomach, and duodenum
[ ] C. Removal of a segment of small intestine
[ ] D. Endoscopic examination of the colon to the cecum or anastomosis when complete

14. Which description best matches “Hernia repair”?

[ ] A. Tissue sampling performed through an endoscope
[ ] B. Surgical correction of protruding tissue through a defect
[ ] C. A colonoscopy that does not reach the intended endpoint and is reported under applicable rules
[ ] D. Endoscopic retrograde examination and treatment of bile and pancreatic ducts

15. Which description best matches “Whipple procedure”?

[ ] A. Pancreaticoduodenectomy with reconstruction for qualifying pancreatic or periampullary disease
[ ] B. Endoscopic removal of a lesion using a wire loop
[ ] C. Removal of part or all of the colon
[ ] D. Widening of a documented gastrointestinal narrowing
